CHARACTERISTICS

Warrior (international sizes)

- 8 mm: 3x0 – 4
- 10 mm: 2x0 – 5

- This model has a left horseshoe and a right horseshoe; this is indicated by the size marked on the outside branch of the shoe and by a bead in the crease.
- The Warrior line comprises front shoes with a toe clip and side clips and hind shoes with side clips.
- The front shoes with toe clip are somewhat longer than the front shoes with side clip, allowing for different positions on the hoof.
- The straight toe makes rolling easier, ensuring the thickness of the material remains guaranteed.
- The front shoes come with two side clip options, between the 1st and 2nd or the 2nd and 3rd nail hole, which offers the farrier a choice to accommodate individual hoof shapes and shoeing styles.
- The entire Warrior line comes with sole relief.
- The width of 20 to 25 mm expands in function of the size.
